SUMMARY

Frontend Software Engineer with 5+ years of experience building scalable web applications and modernizing legacy systems. Strong expertise in **React**, **JavaScript**, and modern frontend architecture, with hands-on experience using **TypeScript** and **Next.js**. Experienced in building responsive, accessible user interfaces, leading and participating in architectural and UX decisions and collaborating within Agile teams to deliver high-quality SaaS products.

EXPERIENCE

Frontend Software Engineer

Transifex by XTM 03/2021 - Present Athens, Greece (Remote)

- **Led** the modernization of a **legacy frontend architecture**, improving scalability, maintainability, and developer experience.
- Contributed to integrations with external platforms (e.g., **Contentful**, **Rigi** etc.), enabling seamless data flow and feature expansion.
- Built **reusable UI components** and contributed to a more consistent design system approach.
- Developed and expanded UI components for **AI-driven** features, contributing to new product capabilities.
- Implemented onboarding flows in **React**, improving user experience and feature adoption.
- Participated in code reviews and supported best practices for clean, testable code and monitored and tested the features on production.
- **Mentored** a junior developer through ad-hoc guidance and code reviews.
- Received **Growth Award** for contributions to frontend development and continuous improvement.

Frontend Web Developer

Netmechanics 09/2020 - 03/2021 Iraklion Crete, Greece (On-site)

- Developed **React**-based templating engine used to render customizable pages across the platform.
- Coded websites using the company's custom templates and components.
- Enhanced user experience by implementing responsive web design and **optimizing performance**.
- Adhered to **SEO & WCAG compliance** while designing sites.

Frontend Web Developer

iWorx 06/2020 - 08/2020 Iraklion Crete, Greece (On-site)

- Developed and maintained websites using **WordPress** and front-end technologies.
- Integrated and customized **WordPress plugins** to extend site functionality.
- Implemented UI and styling updates (CSS) for existing client websites to improve usability and consistency.

EDUCATION

Bachelor of Civil Engineering

International Hellenic University - IHU
2012 - Serres, Greece

LANGUAGES

Greek Native ●●●●● English Proficient ●●●●●

KEY ACHIEVEMENTS

- **Complete Ownership on Integrations within Transifex**
Led the UI development for two integrations (Contentful and Rigi), contributing to increased company revenue.

SKILLS

JavaScript	React	Next.js	TypeScript
HTML5	CSS3	GraphQL	TailwindCSS
Mantine	SASS & LESS		
Redux & Redux Toolkit		shadcn	
Component Libraries		Claude Code	
Git and GitHub		AI-assisted Development	
REST API	jQuery	React-Query	
Context API	Node.js	Express	
React Testing Library		Jest	
Agentic Development			
AI Development Lifecycle		Cursor	

TRAINING / COURSES

- Advanced JavaScript & TypeScript
by Academind and Jonas Schmedtmann
- React, Redux & Testing
by Stephen Grider
- Node.js & Backend Fundamentals
by Jonas Schmedtmann

STRENGTHS

- UI and User Experience Design Principles
- Responsive Web Design
- Component-based Architecture Design
- Application Performance Optimization
- Writing clean, maintainable, and scalable code
- Strong problem-solving and debugging skills
- Mentorship
- Fast adaptation to new technologies and frameworks
- AI-assisted Development
- Microservices Architecture
- Troubleshooting
- Code Reviews

AWARDS

- "Consistently Grow" award by Transifex
Received Growth Award at Transifex for contributions to frontend development and continuous improvement
