Profile

Frontend Software Engineer with 5+ years of experience delivering scalable web applications and modernizing legacy systems. Proven track record of improving code quality, implementing maintainable frontend architectures, and contributing to AI-driven features. Strong expertise in React, and collaborative development within Agile teams.

Detail-oriented, organized, and meticulous employee. Works at fast pace to meet tight deadlines. Enthusiastic team player ready to contribute to company success.

Work Experience

Web Developer, iWorx, Heraklion

Jun 2020 — Aug 2020

- Front-end website development using WordPress

Web Developer, Netmechanics, Heraklion

Sept 2020 — Mar 2021

- Coded websites using HTML, CSS, JavaScript, and jQuery languages.
- Enhanced user experience by implementing responsive web design and optimizing website performance.
- Adhered to SEO & WCAG compliance while designing sites.

Frontend Software Engineer, Transifex by XTM, Athens

Mar 2021 — Present

- Led modernization of legacy frontend, reducing technical debt and improving maintainability
- Contributed to integrations with external platforms (e.g., Contentful, Rigi), enabling seamless data flow and feature expansion
- Developed UI components for AI-driven features, contributing to new product capabilities
- Implemented onboarding flows in React, improving user experience and feature adoption
- Supported a junior developer through ad-hoc guidance and code reviews
